

Bikeability Year 5

6th—10th October 2014

Wellow
Primary School

What an amazing week Year 5 have had. The bikeability sessions are led by Mountbatten PBed Department and offer each child in Year 5 the chance to improve their bike riding skills to become a safer, more confident rider.

Many of the children were nervous about this experience even though they might have bikes at home. The sessions took place on the playground, leading to on-the-road training once their competence was assessed. Despite the damp, wet conditions enthusiasm was high and by the end of the week all had achieved their Level 1 cycling proficiency and the majority their level 2

allowing them to ride on the road safely using the necessary skills to ensure they were aware of the dangers and pitfalls of the road.

Charlie stated: 'I was really scared about riding my bike before this week but I'm really pleased I did this. My mum and dad were so pleased they went out and brought me a new bike at the weekend!'

The PBed staff were really pleased with the attitude and behaviour of the children all week. They commented on the sensible manner the children conducted themselves especially on the road! Safe riding Year 5!
