Isle of Wight Residential

At the end of September Year 6 spent five days staying in Bonchurch on the Isle of Wight.

Our adventure started with the ferry journey from Lymington to Yarmouth. We have been learning all about the geology of the Isle of Wight so we could see the different rocks and look at erosion on the beach at Bonchurch, Alum Bay and The Needles. We learnt about the local history of Bonchurch on a walk and visited Carisbrooke Castle and Osborne House. Rock pooling on the beach at Bonchurch enabled us to learn about the coastal habitat and work with a partner. The children faced the challenges of room sharing, taking personal responsibility for themselves and their belongings, the night time games, the Nansen Hill climb and the eight mile walk with enthusiasm and helped each other along the way.
