

# Romsey Lantern Parade

*9th December 2016*

**Wellow**  
Primary School

The theme of the Lantern Parade this year was 'From River to Sea'

The children in year 3 worked with a teacher and students from Mountbatten School to create the willow lantern structures during a morning workshop. The children then collaborated to design and decorated them to look like fish. The children put in lots of effort to develop their sculpture and collage skills in Art and created some fantastic colourful lanterns.

The children were enthusiastic and proudly carried their lanterns in the parade. Parents, families and staff shared in this spectacular local event, helping to develop the children's Social development as part of the wider community.
