

24th June 2015

Wellow
Primary School

On Wednesday 24th June, the whole school was treated to an afternoon of sporting activities, provided by students from Totton College. The children moved around a selection of activities and were taught different skills. They had a go at different jumping activities, jumping as far as they could from one foot and then two feet.

The children were excited to be able to try out vortex and javelin throwing. They practised their target throwing with a team game where they had to throw a tennis ball into a bucket, without being stopped by defenders. Everyone enjoyed the obstacle course which involved running along a bench, balancing a tennis ball on a racquet and dribbling a football. As always the children supported each other and cheered their classmates on.

On the playground, the children took part in a range of relay races, including skipping, sprinting, side steps and even hopping. It was so much fun that even Mrs Skinner and Mrs Lea joined in!

Finally the children went into the hall for gymnastics. They all impressed us with their superb pike, tuck and straddle shapes! Everyone challenged themselves and had a go at making a gymnastic shape in the air when they jumped.

It was a fantastic, active afternoon. The children had great fun and learnt lots of new skills.
