

Year 3 are being employed as personal trainers!

This term, the children will be learning how nutrients, water and oxygen are transported within animals and humans. They will explain the importance of a nutritious balanced diet in order to advise potential clients! The children will develop their knowledge of the skeletal and muscular system of humans so that clients can be reassured that they are in expert hands!

This unit will culminate in a 'Parent Bootcamp' where you will be invited in to learn how you can lead a healthy lifestyle and keep fit! Date tbc

Welcome Back! A very exciting half term lies ahead with our one night residential at Calshot to look forward to!

IMPORTANT DATES

Calshot Parents Meeting— 7th June at 3.15pm in the Year 3 classroom

Calshot Residential 2nd-3rd July 2018

Sports Day— 29th June

Parent Bootcamp—TBC

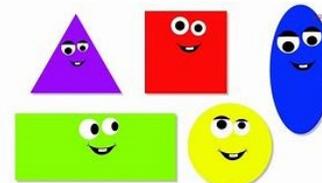

If you would like to contact us, you can write a message in the diary or contact us by email: kerry.somers@wellow.hants.sch.uk or m.sherrington@wellow.hants.sch.uk

Year 3 Curriculum News

Brilliant Bootcamp!

* In English, we will be looking at fables and identifying the important morals the stories promote. The children will then be using all their descriptive techniques to write their own fabulous fables. They will write in paragraphs, include dialogue for their characters and use prepositions and conjunctions to extend their sentences.

* In Maths, children will be calculating duration using timetables. They will be looking at 2d and 3d shapes, identifying the properties of each. The children will recognise right angles, acute angles and obtuse angles within shapes and use their understanding of angles to follow direction. Finally, children will be learning how to measure mass and capacity.

* In Art, the children will be exploring texture and materials to create a collage, while in DT they will be carefully sewing a landscape to represent our trip to Calshot!

Things to practise at home!!

The children have worked really hard to make super progress in their learning this year. If you would like to ensure the best progress is made, (and maintained) here are some things you can practise at home:

-Reading and asking the children questions about what had been read

-Practise of their multiplication on the 'Times Table Rock Star' website.

-Practise reading the time on an analogue and digital clock

-Any opportunity to practise their written methods for the four operations (- + x ÷)
