Year 1 Planting with Mrs Roman

We were so lucky last Thursday – Ollie’s Mum came in and helped us plant all sorts of different seeds. We discussed which vegetables we like the most and if anyone grew plants at home.

We planted some lettuce, parsnip and carrots outside in the soil. Mrs Roman also gave us a greenhouse for some seeds that need a bit more protection. We planted cucumber, cress, courgette and pumpkin in pots for the greenhouse. Each vegetable needed a label so we know what is growing.

Thank you for all your hard work Mrs Roman, we will keep watering and hopefully watch our vegetables grow!
