Wonderful Windsor

What a wonderful trip! Year 2 had a fantastic day exploring Windsor Castle and learning about the role of a queen. The children were in awe of the grandeur and history of the building. They stood in wonder at the guards on sentry duty and asked the staff lots of questions about the Queen and her life.

The children learnt about the role of the Queen as the Head of State and as an authority figure. As well as learning about Queen Elizabeth II, they were told stories about Queen Victoria. They were able to compare the lives of the two women and identify how the job of being a queen has changed over the last 100 years.

Emily reported “It was exciting to see all of the gold objects in the State Rooms and it was a joy to see Henry VIII’s armour up close.”
