

Junior Leadership Lunch

On 24th February we hosted our first Junior

Leadership Lunch. This was a great opportunity to meet together with Alison and other members of the HC3S team to discuss our hot lunches. The Junior Leaders had asked their classes about which meals were the favourite and which were least popular. They then fed back this information to the HC3s team. The Junior Leaders also got to test our two different pizzas in a taste challenge as there had previously been concerns about too much cheese. When trying both they came up with an unanimous decision that choice 2 was best. It turns out the pizzas had the same amount of cheese but mild cheddar was tastier than mature, so try pizza next time it is on the menu and see if you can taste the difference!

Other subjects of discussion were how to keep people eating healthily and new options coming up such as cheese and apple flapjack. Everyone enjoyed their lunch and it was fantastic to discuss ideas and open up communications for future improvements.

Quotes from the day:

'I didn't realise everyone liked different food.'

'I wonder what will be in the new menu?'

'It was really good to eat lunch with other year groups.'
